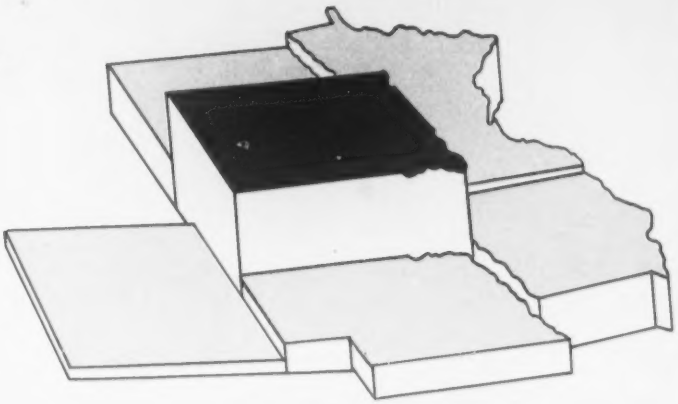
Vol. VI, No. 6



Published by Business Research Bureau, The University of South Dakota

* RETAIL SALES IN THE SEPTEMBER-OCTOBER BIMONTHLY WERE UP 6.0% FOR SOUTH DAKOTA'S RETAILERS

* RETAIL SALES IN COUNTIES OF THE TOP TEN CITIES GAIN 6.2%

* THE MORE RURAL COUNTIES GAIN 5.4%

The retail sales of the counties containing the state's ten largest cities increased 6.2% in the September-October bimonthly when compared to the same period last year. The rural counties reported increases of 5.4% for the bimonthly. Both groups, urban and rural trailed the 6.6% national growth rate for the two month period.

Yankton and Pennington counties were the leading performers of the "top ten" counties with growth rates of 9.1% and 8.9%, respectively. Pennington's strength was in the areas of mining, transportation and public utilities, the sale of retail goods and services. Yankton's performance strengths were in the areas of transportation and public utilities, taxable wholesale trade, retail goods and financial services which includes legal and real estate services.

Codington county performed well during the period. It trailed the leaders by a small margin with a growth rate of 8.6%. Unlike the leaders, it showed strength in construction. Like the leaders it had strong growth in the transportation and public utilities sectors. Codington also showed strength in the sale of goods and services.

Overall, the mainstreet retailers of the "top ten" counties reported a 6.5% average increase in the sale of goods and a 4.6% increase in the sale of services. The counties of the top ten with above average sale of goods were, Hughes (9.9%), Pennington (9.3%), Yankton (9.0%), Codington (8.8%), and Minnehaha (7.3%). Those exceeding the average (4.6%) in the sale of services were Pennington (11.0%), Brown (8.4%) and Codington (8.0%).

National retail sales grew 4.4% in the November-December bimonthly; this is down from the 6.6% increase in the September-October period. The national index of consumer sentiment for the period dropped from 95.8 in September-October to 90.9 in November-December.

SOUTH DAKOTA Data Supplement

Vol. VII, No. 1

*** RETAIL SALES IN THE CHRISTMAS MONTHS OF NOVEMBER AND DECEMBER WERE UP 3.9% FOR SOUTH DAKOTA'S RETAILERS**
*** RETAIL SALES IN COUNTIES OF THE TOP TEN CITIES GAIN 3.4%**
*** THE MORE RURAL COUNTIES GAIN 5.0%**

By Randall Stuefen

The Christmas season receipts for South Dakota retailers increased an average of 3.9% over the same period in 1988. Rural county sales' performance increased at a rate of 5.0% which is 1.6 percentage points better than their urban neighbors. The primary difference between the rural and urban county's performance is attributable to Pennington county's incredible performance swing in the finance, insurance and real estate (FIRE) sector. The urban counties reported an 11.6 million dollar or 60.5% drop in FIRE taxable receipts between 1988 and 1989. This is an isolated incident. Pennington county receipts alone decreased 11.2 million dollars. Excluding the FIRE sector, the retail performance for the urban group was 5.6% for the period and is comparable to the 5.0% increase for the rural counties.

Performance for each of the top ten counties in the November-December bimonthly is presented in one graph below. The 1988 and 1989 annual performance of the top ten counties is presented in the adjacent graph. The performance of 1989 exceeded that recorded in 1988 for all ten of the counties, but the rate of growth diminished in seven of the ten. The three counties with improvement performance rates were not the best overall performers in either 1988 or 1989.

Construction for the urban counties was down 1.6% in 1989 compared to 1988. The Pennington county finance, insurance and real estate problem has been discussed. The other sectors performed relatively well. The sale of goods was up 6.1% and the sale of services was up 6.3%. Manufacturing taxable sales increased 17.0% over the year.
